CRYSTAL WORLD® & YOU

As you take a moment to browse through our 2025 Crystal World® Special Markets Catalog, we want to thank our numerous long time clients and introduce ourselves to new acquaintances.

Founded in 1983 in New Jersey by a team of talented artisans, Crystal World's early endeavors focused on elaborate architectural structures, such as the Empire State Building & Eiffel Tower, whimsical figurines and delicate crystal flowers. Accolades & awards soon followed. Subsequent license agreements with the Walt Disney® Company and Peanuts® further challenged and honed the talents of our design team. Creating recognition awards, along with incentive, corporate & premium gifts for the ad specialty industry was an obvious progression for this fast-growing company. Crystal World® is now world-renowned for creative artistry and originality in the truly challenging medium of fine optical crystal.

Why choose crystal when considering an awards or recognition program? The reasons are crystal clear. Crystal is a truly elegant medium that conveys style and sophistication to the recipient. When you care enough to give the very best, give the timeless gift of crystal. Whether your clients come from the corporate, tech, finance, retail or manufacturing sectors, public service & non-profit arena,

or the sports & entertainment fields, individuals who achieve success need to be recognized, awarded and motivated. Crystal, with its remarkable light refractive characteristics, has a quality and beauty that will be remembered long after other awards have lost their brilliance.

Why Crystal World®? Crystal World, while not the largest producer of crystal awards, is perhaps the most creative of the various crystal companies, with the ability and flexibility to "think outside the box" to satisfy even the most discerning client.

We encourage you to consider the endless possibilities above and beyond the selections featured in this catalog. Crystal World® is capable of

creating stunning custom designs to please nearly any client. Why would you expect anything less from one of the earliest pioneers in the creation of crystal awards and promotional products?

If you or your client is looking for something truly exceptional... perhaps to commemorate the launch of a new brand, a mobile app or IPO, to honor the retirement of a company founder or your top sales performers, consider our custom capabilities. Challenge our design team to create something truly extraordinary and be a hero to your client or organization.

It may surprise you to learn that creating a crystal awards or incentive program can actually be quite affordable. From simple paperweights to spectacular optical crystal awards, Crystal World® has something to fit nearly any budget.

As many successful leaders will attest, recognizing and incentivizing success, good leadership & excellence is not just a "good idea". It is essential for good morale, motivation & growth.

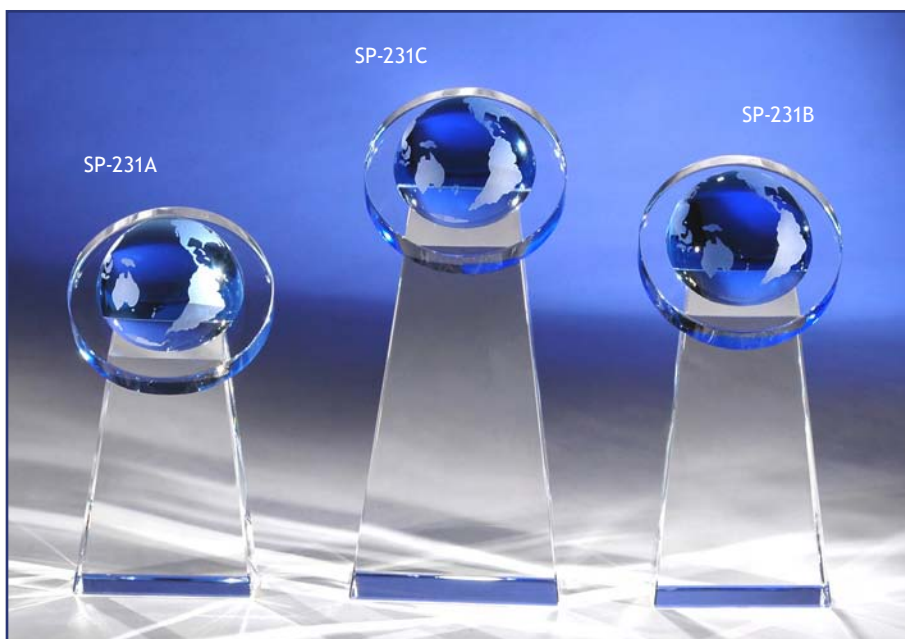

We look forward to partnering with you and your clients in the coming year to help take your organization to the next level!
